

GRI Index

WM is committed to consistent and meaningful public disclosure and discussion of our sustainability progress through the use of voluntary sustainability reporting standards and frameworks. This document is guided by the **Global Reporting Initiative (GRI)** Standards, an independent international organization that provides global common language to communicate and disclose on sustainability. WM has reported the information cited in the GRI Content Index with reference to the GRI Standards, GRI 1: Foundation 2021 for the reporting period of January 1, 2023 through December 31, 2023.

About WM

WM is North America's leading provider of comprehensive environmental solutions. Previously known as Waste Management and based in Houston, Texas, WM is driven by commitments to put people first and achieve success with integrity. The company, through its subsidiaries, provides collection, recycling, and disposal services to millions of residential, commercial, industrial, and municipal customers throughout the U.S. and Canada. With innovative infrastructure and capabilities in recycling, organics, and renewable energy, WM provides environmental solutions to and collaborates with its customers in helping them pursue their sustainability goals. WM has the largest disposal network and collection fleet in North America, is the largest recycler of post-consumer materials, and is the leader in beneficial use of landfill gas, with a growing network of renewable natural gas plants and the most landfill gas-to-electricity plants in North America. WM's fleet includes over 12,000 natural gas trucks – the largest heavy-duty natural gas truck fleet in the industry in North America. To learn more about WM and the company's sustainability progress and solutions, visit **Sustainability.WM.com**.
